**Peace is our Responsibility**

 **Jacqueline Ripstein**

**Peace starts within each human being! Its our natural inner state.  
The Arts are a Spiritual and energetic expression that unveils our  
Inner Peace.**

***Peace is a state of Serenity! Say to yourself...I Am Peace...and feel  
within you , your inner Peace.***

***Outside war is the reflection of our inside anger, and war with  
ourselves.***

**Human beings for centuries have expressed through the Arts, a  
silent language of our Souls, when we are creating, we are united with no  
boundaries of separation, and in a sacred space of Peace.**

**Art enables mankind to transcend limitations of culture, religion & race. It is manifested with depth of expression, being a direct manifestation of the Soul. The Arts have a universal appeal, containing invisible codes- an energy system of a sacred language that connects us all, and to the flow of the Universe. It is a silent invisible language that talks from one Heart to another abolishing the boundaries created by mankind. We all are co-creators, we all contain inside of us the creative forces.**

**The Arts in all its forms- music, dancing, painting, sculpture, poetry, etc, are a powerful tool for healing. They elevate us to an inspirational state, helping us to create a more meaningful and colorful life. They are a gift which benefits all mankind, and they contain the power to uplift us through in-spiritus, a direct connection to our Spirit.**

**In Art, the vibrations within colors and sounds reveal our Spirits. Art reflects our inner world as a mirror to our outer world, since as it beholds beauty it inspires us to “see beauty.” They enlighten us to respect and uphold the dignity and respect of other human beings, and it is a true manifestation of unconditional love.**

***“Science and art belong to the whole world, and before them vanish the barriers of nationality.” Goethe.***

**To transmute a negative feeling or thought we use the principle of polarity: *Concentrate your thoughts in the opposite pole of the one you want to suppress. For example, if you are depressed think about a happy moment in your life, by doing this you are conducting your mind. Distract your mind, be in control of your feelings, dance, paint and let the energy flow through a creative moment, orienting it to a positive focus, as a result we connect to inner Peace and Love within each of us.***

**Art is an experience of the sublime, or the Divine. It enriches our lives, and by inspiring us it raises our beings into higher states of Being, connecting us with our inner Divine force. The Arts awaken the forces of creativity, Peace and consciousness within us, creating inner Peace. By uniting human beings through the Arts, the creative forces, we rise above all lower levels of chaos, of negativity and war, *Humanity then becomes a One Enlightened Human family.***

**A NEW PARADIGM FOR HUMAN POSSIBILITY ...A NEW DAWN, A NEW AWAKENING...**

**AS WE co-create our lives, our planetary wellness expands, we become the masters of our own Destiny...**

To know that the THOUGHT of separation, creates separation, greed, war, imagine a THOUGHT that is creating all this negativity!

We need to transcend this thought and co-create a new one of ONENESS, EDUCATING OUR NEXT GENERATIONS BY TEACHING THEM UNITY, RESPECT, LOVE FOR EACH OTHER, in the understanding that we all are human beings traveling a Life journey, within the same Planet Earth, we are...ONE HUMAN FAMILY!

I propose....

- To Create a new educational system where children learn we all are One.
- Attract leaders whose Planet mission is to co-create Peace.
- Help create Peace through the use of the Arts or, meditation.
- A process, where the Arts create a program to nourish the inspirational levels of a Human Being, using the Arts as a societal transformation to be shared, refined, and implemented, in schools, and on international events.
- Create technological platforms that provide the structures and tools to facilitate participants coming together in synergy to manage and complete Art and World Peace projects. (as the done in 2012 UN World Peace Day – First China-Linzhou World Peace Art Exhibition)
- If we learn how that we are co-creators, activating our gift of serenity within each of us, this could be a beginning of a new conscious and healing moment!
- By awakening our creative powers: We rise above the level where the “problem was created”
- If we are able to create wars, then we also have the capacity and are able to create Peace!
- As we become aware of where is the pattern that connects us to our negativity and anger, we then can start to heal the low negative emotions.
- If we are against war; these thoughts create a vibration and a feeling of resistance in itself, and it creates more war! These negative affirmations can only create more what we don't want!
- By focusing into war, we are giving it our strength and spreading more anger, war and pain, the resolution is to transmute where our energies are being focused on, and re-focus into higher frequencies like Arts, Joy, Creativity, this all leads us and fosters in us higher states of mind and vibrations.
- Forgiveness is an emotion that can heal...we first forgive ourselves and then others!
- 
- In the Renaissance time the Arts were the. Inspirational tool, and the results were “A Golden Era “Inspiration brings back the faith.

- Higher dimensions send their messages on the higher frequencies, and the lower dimensions communicate through the lower frequencies.
- 
- The Invisible forces are always available for us to use them, inside of us lies the truth
- 
- *"Resolve conflicts by merely reviewing them. Conflicts cannot be resolved at their own level but only by raising them to the next higher level when awareness becomes obvious."* (Einstein)

When we all awaken to the truth, that we are Light and Peace within us, as we take responsibility of our actions, and as each of us achieves our state of Inner-Peace, then HEAVEN & EARTH WILL BE UNITED, and WorldPeace will prevail!

Peace is our responsibility!
